Sanju Shree T N

CSE(AI/ML)

As a passionate and hardworking student majoring in Artificial Intelligence and Machine Learning at Sona College of Technology, I have dedicated myself to mastering the skills and knowledge necessary to excel in this field. I am eager to apply my academic background and hands-on experience to contribute meaningfully to your team. Open to employment/ research/ internship opportunity to learn-expand my knowledge

EDUCATION

BE, CSE(AI/ML)

SONA COLLEGE OF TECHNOLOGY

2022-ongoing CGPA:8.3

12TH GRADE

VIVEKANANDHA HIGHER SECONDARY SCHOOL

2020-2022 84.3%

10TH GRADE

VIVEKANANDHA HIGHER SECONDARY SCHOOL

2008-2020 99.2%

SKILLS

AI&ML

JAVA BASICS

POWER BI

TABLEAU

LANGUAGES

ENGLISH

TAMIL

HINDHI(BASICS)

JAPANESE(BASICS)

PROJECTS

WOMEN SAFETY ANALYSIS

Designed and trained a model using a women-specific dataset to enhance safety. The **ML model** detects scenarios through CCTV camera where a woman feels insecure, such as being surrounded by 5 men or specific hand gestures, and sends an alarm signal and SMS alerts to nearby helplines. This solution integrates advanced detection techniques for real-time safety responses

ACHIEVEMENT

- Won 1st Prize in Project Marathon, Developed a system to convert high beam to low beam using an LDR sensor.
- Won 1st Prize in Paper Presentation conducted by our college
- Smart India Hackathon (SIH) Semi-Finalist

INTERNSHIP

Internship Experience – Infosys(3 months)

Project: Art of Visual Storytelling.

Trained a model with diverse image datasets to extract objects using the YOLOv8 CNN model.Utilized Roboflow for customized labeling and annotation.Implemented a genre-based feature to generate stories in different styles.Integrated GPT-3 for automated story generation.

WORKSHOP

NATIONAL INSTITUTE OF TECHNOLOGY

Research opportunity in computer science(ROCS)
